7th Grade Elective Classes

Elective classes cannot be changed after the first week of the school year. Some electives may not be offered due to changes in staffing.

Beginning Band (1 year)

The primary purpose of the class is to develop the skills necessary to play in Intermediate Band. This is done by working in Band Book 1 and performing in concerts. A proficiency exam is given at the completion of Book 1.

Choir 7 (1 year)

Students will learn to sing in a choir, read 2-part and 3-part music from a variety of styles and cultures and perform in concerts. This is a non-auditioned choir and all students are encouraged to participate. If you like to sing, this is the class for you.

Hidden Codes (1 term)

Learn how to write code in order to create games and other programs. Hidden Codes uses an on-line platform that allows each student to progress through three courses made up of individual stages in order to learn the basics of coding in Blockly format of Scratch. After the three courses are completed, students move into a separate program to create a game using the Blockly format in Kodu.

Art I (1 term)

Students will be introduced to famous artists' works and the basic elements of design as they create works of 2-D art. Students will better understand and be able to apply color, value, line, texture, shape, form, and space by the end of the trimester.

Crafts (1 term)

This class is designed for the student who likes hands-on projects. Students will use craftsmanship, creativity, and embellishment to create various 3-D craft projects which may include bird house construction, papier-mâché, block printing, weaving, glass etching, and carving.

Pop Culture (1 term)

Do you love media? Have you ever wondered about the influence of certain movies and songs? Do you question why memes and videos go viral? This elective allows you to explore pop culture from yesterday and today. Discover how pop culture has represented and influenced the way we live, think and interact. This elective will utilize books, articles, podcasts, movies, videos, music, and social media. Students will have the opportunity to select topics and to help design this lively and engaging class.

Agriculture Exploration (1 term)

This is an introductory level course which provides an opportunity for students to get a taste of the many opportunities in the Agricultural Sciences Program and the agricultural industry. This course will be fun and engaging because many different topics are covered, which include: animal science and plant science. After this course, students will have some basic knowledge and be prepared for more Agricultural Science classes offered at the high school level. They will have an understanding of what agriculture is and the opportunities it provides.

Drama (1 term)

This course will be filled with opportunities to act, create and perform. Drama will be graded on 80% participation and 20% vocabulary and stage knowledge. Be ready to get involved and learn a bunch about acting and being in plays. The overall goal is to perform a play at the end of the trimester.

Creative Media - Yearbook/Newsletter (1 term)

In this course, students will work to produce the annual yearbook as well as a quarterly newsletter. Students will gain skills in the following areas: organization, layout, design, photography, and creative writing.

Logic Games (1 term)

Students will learn how to play and the strategies for good game play for a variety of games that could include: Chess, Risk, Sudoku, card games, etc.

It is the policy of the Tillamook School District #9 that there will be no discrimination or harassment on the grounds of race, color, sex, marital status, sexual orientation, religion, national origin, age or disability in any educational programs, activities or employment. Persons having questions about equal opportunity and nondiscrimination should contact the Superintendent at the District Administration Office, 2510 1st Street, Tillamook, 503.842.4414 opt #2.
